

Wolo

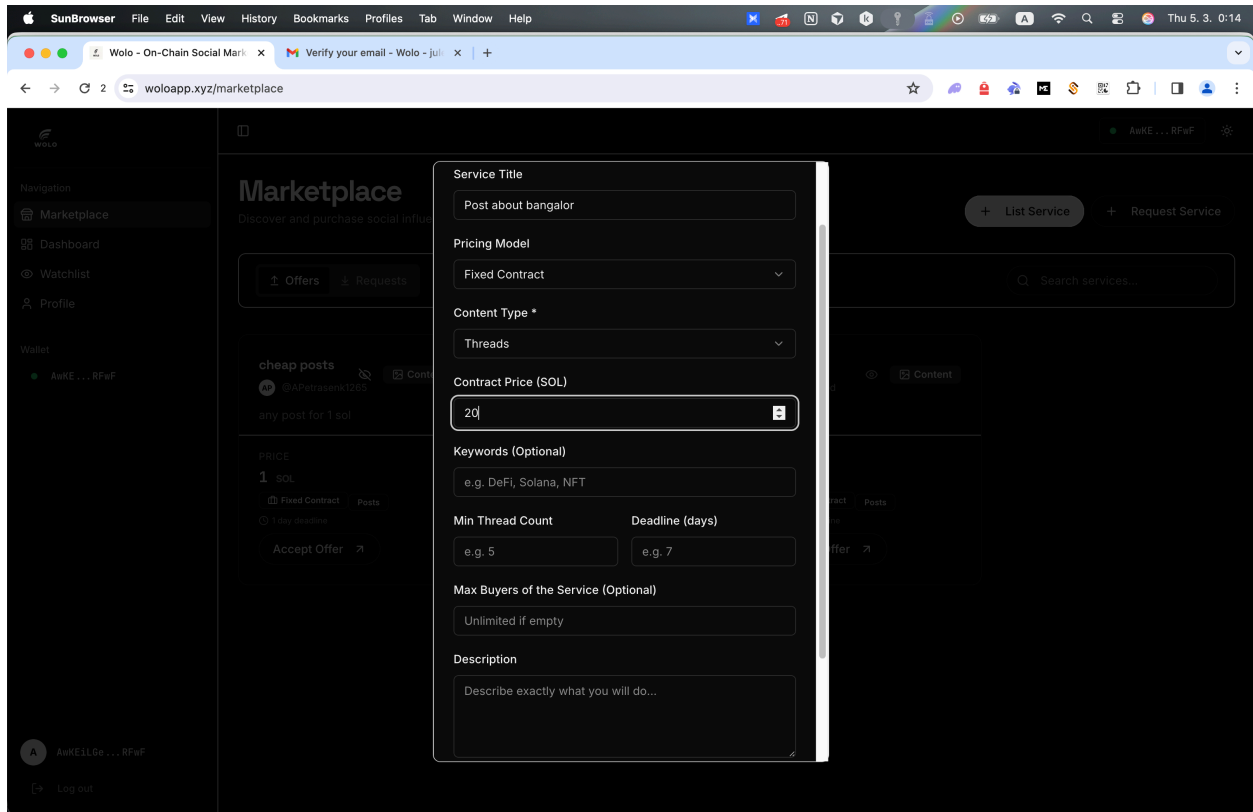

- change this page: rename it to something more appropriate to the new essence of the project (client essentially buying marketing posts about his product/project from influencer-seller), delete everything related to farming micro-actions on X (paid likes, reposts and follows which are banned by X policy)

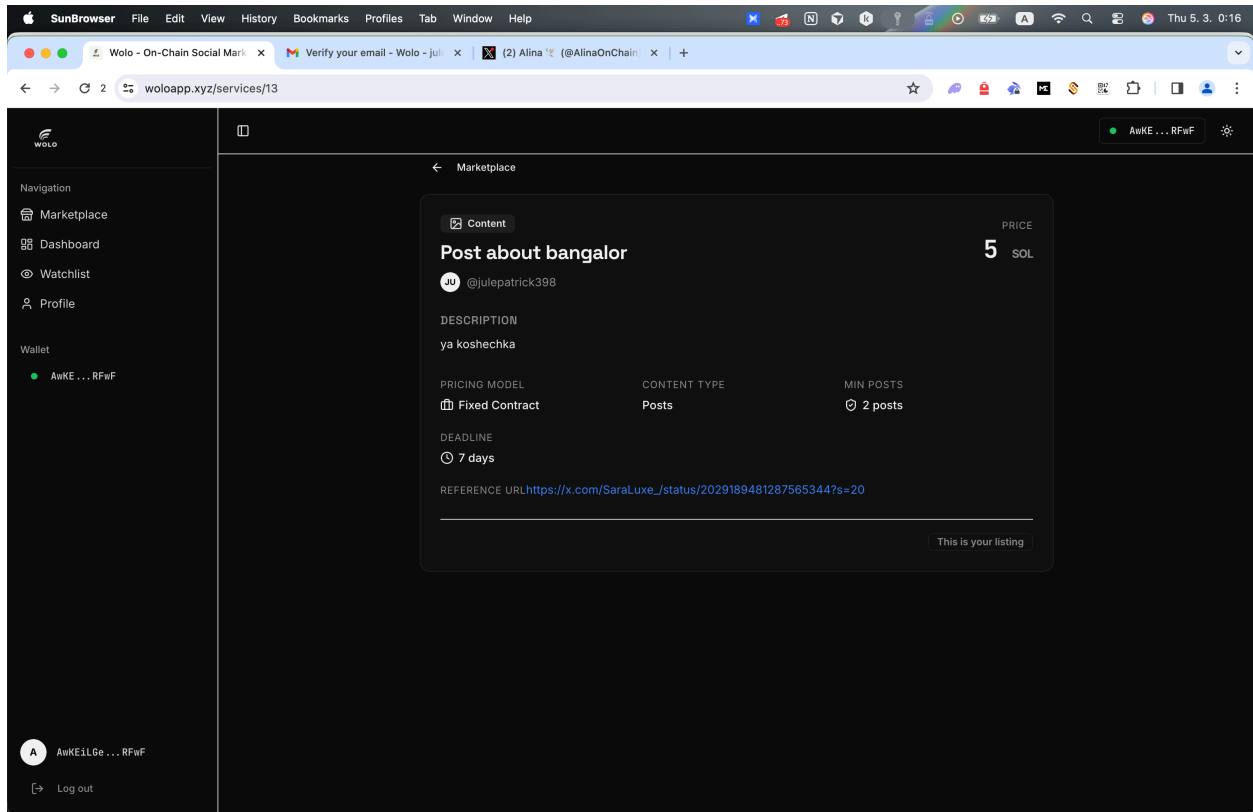

- when i was verifying my X, after it web reloaded and signed me out and now doesn't see my backpack wallet which i used to sign in - analyze and fix the problem

- change fixed contract to fixed price, change Contract Price (SOL) to price (SOL)

- X account listing a service cannot use reference link to not his X profile. the only allowed types of links in the Reference URL (Optional) field is links to sellers own X page, posts, threads - his own X content.

- User who listed/requested service must be able to delete/change their applications.
 - Delete - User offering a service (seller): must be able to cancel application at any time even when escrow was funded by the buyer, then buyer receives full refund (Wolo fee doesn't take place).
 - Delete - user requesting a service (buyer): Must be able to cancel application before fully agreed with seller and seller started performing the order. Before buyer himself funded the escrow, he is able to delete his request.
 - Change - User offering a service (seller): must be able to change application before buyer funded the escrow, after escrow deposit by the buyer, seller can request changes of his initial application, and if approved by buyer (buyer must be notified) these changes take place. If the changes (which were approved) were related to the total price of the deal, the excess part of initial deposit to escrow is returned to the buyer. If

buyer initial deposit isn't enough due to the changes of total price are approved, buyer is requested to deposit remaining amount in sol.

- Change - User requesting a service (buyer): Must be able to change application before fully agreed with seller and seller started performing the order. Before buyer himself funded the escrow, he is able to change his request.
- For payroll types of applications deadline must be counted in periods, so change Deadline (days) to Deadline (periods)
